

Emelie Torstensson is a Swedish country artist and songwriter with strong roots in storytelling. Her music is grounded in personal experience, everyday observations, and encounters with people—making room for both hardships and triumphs. This spring, she releases her debut album, Homegrown.

Musically, Emelie moves between modern country, Americana, and classic singer-songwriter storytelling, where melody and lyrics are always at the center. Her sound can be stripped-down and intimate or more rhythmic and energetic—always in service of the song.

Live, Emelie offers a close and welcoming concert experience, inviting the audience straight into the stories behind the songs. With presence, warmth, and humor, she represents a new generation of Swedish country artists. Together with her skilled band, the Stable Four, she gives audiences a broad genre experience—from original material to classic country gems.
